

Create And Configure IBM Cloud Services

Create IBM Watson IOT Platform And Device

Date	16-11-2022
Team ID	PNT2022TMID14081
Project Name	Real-Time River Water Quality Monitoring and Control System

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and user profile. The main content area is titled 'Dashboard' and features a 'For you' section with several service tiles. These tiles include 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), 'IBM Watson Knowledge Catalog' (Help your data citizens easily find, prepare, understand and use the data they need through an enterprise data catalog & governance platform), and 'IBM Cloud Migration Services' (Use IBM Cloud Migration Services to migrate workloads to a hybrid cloud with reduced risk and cost). Below the 'For you' section, there are four more tiles: 'News' (View all), 'Recent support cases' (View all), 'Planned maintenance' (View all), and 'IBM Cloud status' (View all). The bottom of the dashboard shows a taskbar with various application icons and system status information like temperature (82°F) and time (15:14 15-11-2022).
